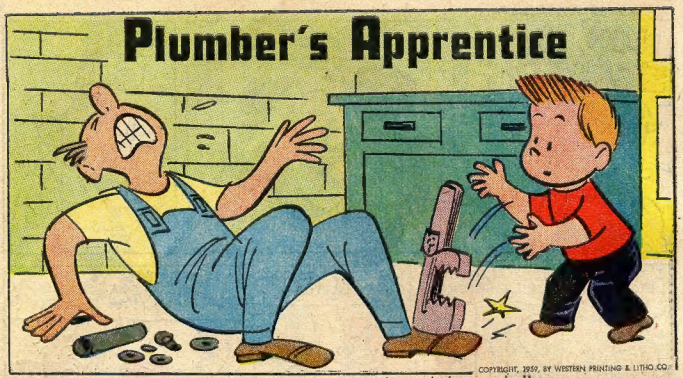
Plumber's Apprentice



COPYRIGHT, 1959, BY WESTERN PRINTING & LITHO. CO.

When the plumber finally came to Harry Applegate's house to fix the leaky faucet Harry was very pleased.

"I'll help you," he said.

"That's fine, son," the plumber said cheerfully.

Harry was a boy who was always helping somebody whether his help was wanted or not, and when the plumber went outside to turn the water off, Harry helped him by taking his tools out of his tool box. He put them on the kitchen window sill where they would be handy. One wrench fell out the window, but there were so many left, Harry was sure it wouldn't matter.

It mattered to the plumber. He came in rubbing his head where the wrench had hit him.

"It slipped," Harry said.

"Yes," the plumber said, not so cheerful any more.

While the plumber took the faucet apart Harry helped by handing him the tools he needed. He dropped a wrench, cracking the plumber on the toe.

He said, "Owl" so loud it startled Harry who jumped back and knocked two dishes from the kitchen table.

"Your mother isn't going to like that," the plumber said.

"No, she isn't," Harry agreed. "I get into more trouble than you can imagine trying to help people."

"I can imagine," the plumber said, not cheerful at all now.

When the plumber went outside to turn the water back on, Harry helped by taking the big pipe wrench and making the faucet a little tighter. He made it so tight something broke, and when the plumber came back water was shooting around everywhere, making an awful mess.

The plumber chased Harry out of the kitchen and finished the job alone. He went home muttering. Harry had him so mixed up, he even forgot to take all his tools.

Just to be sure the plumber had done a good job, Harry helped by taking the tools and working on the washer a little more. Harry was very good with tools. When his mother came in from shopping, she entered the kitchen door just in time to have water squirt in her face from the faucet Harry was "fixing."

"I'm tightening it some more," Harry said. But the more he "tightened," the more the water squirted around.

"You're turning it the wrong way!" his mother screamed.

That evening Harry's father turned *him* the wrong way and vigorously applied the flat of his hand.

"It's a good idea to help people, Harry," he said. "But be sure next time you know how to help them."
